Product Features

-  **Design for Print Industry**
Color density meter is a good performance measuring device to measure color density CMYK (A, T, E, M), dot gain, overprint rate, print contrast, gray level, hue error. It supports 20 kinds of color indices and 26 kinds of illuminants.
-  **Auto Calibration**
It adopts auto calibration technology to realize real-time calibration for easier operation.
-  **Small Aperture**
4mm aperture to measure smaller size.
-  **Connect with APP to extend more functions**
Instrument comes with free software to save test result and establish personal color library.
